A Non-Profit Organization Dedicated to the Prevention of Substance Abuse

The **Saving Station Foundation** is not a government agency. We rely on the generous support of the Canadian public. Your Tax-Deductible donation will help us help our youth...our future. Thank you.

**Saving Station** Foundation is a non-profit organization dedicated to the elimination of substance abuse by providing the best possible prevention and recovery activities, strategies and programs.

The objectives of the foundation are:

- To increase student/parent/teacher participation in prevention education.
- To assist schools and organizations in the prevention of drug abuse;
- To provide health and mental health education to individuals and families affected by substance abuse (drug, alcohol, medication, etc.) and to the community in general;
- To provide, publicize and develop awareness community programs regarding substance abuse;
- To assist persons in coping with the effects of substance abuse by offering education and guidance through mutual support groups;

The foundation's goal is to open an "Immediate Care Drug Crisis Center" with a 24/7 hotline.

The center will be a safe haven for youth in high-risk situations and offer immediate help for those in trouble. In addition it will offer support groups and workshops and provide one-on-one therapy, addiction counseling as well as offer full support and social services for spouses and families.

**Alvin Powell** is a former NFL offensive lineman for the **Miami Dolphins** and the **Seattle Seahawks**. At 6-foot-5, 320 pounds, he was an imposing figure on the football field. Alvin fell prey to the disease of addiction and is now recovered. He has turned his life around and is working helping others quit their habit and to prevent young people from ever starting.

He has visited hundreds of high schools, universities, sports associations and corporations. In his visits, he tells his compelling life story of how drugs ruined his NFL career, his life, and brought him to the brink of death.

"One of the most inspirational presentations we have ever heard...Our student population, consisting of delinquent youth listened intently for over an hour without any disruption....not only is this rare, but unprecedented in over twenty years..." D.M.

Powell has dedicated the past 10 years to the prevention of drug and substance abuse, as well as to helping those in crises who are suffering from the disease of addiction. "Drugs do not care who you are" he says. "They do not discriminate against color, creed, race, size, economic background or even age." Powell notes that his youngest client is 10 years old and his oldest is 63.

"Mr. Powell is a powerful speaker with a rare ability to reach all kinds of teenagers. Every child in North America should hear him talk."  
Q.M.
